

EBR Teacher Login Essentials

Many login accounts are automatically generated for new employees in EBR. These accounts are not created until you are considered an *Active Employee* in the school system. This means that you have submitted all necessary paperwork to Human Resources *and they have processed that paperwork*. When you have received an Employee ID number (your school secretary can give you the number) you are considered active and your automatically generated logins should work within a few days. Your Employee ID number should be kept private.
